

Variable Analysis by Version of The Right Site ® (TRS) 2010

This document is designed to help our clients determine which version of our software products (The Right Site - Executive, Professional, or Advanced) is best suited for their needs.

Introduction

Easy Analytic Software, Inc. (EASI) is a New York-based independent developer and marketer of desktop and internet demographic data and software solutions that provide demographic reports with unique search and analysis tools. EASI provides targeted site analysis software and updated demographics and related data for standard and customized geographies (Block Groups, ZIP Codes, Cities, Counties, CBSAs, etc.). Included with all software is a simple to learn mapping tool that does street lookups, point maps, ring studies, create quintile analysis, and much more. EASI has been in business since 1995 with over 1,500 clients who use our databases, software, and on-line services.

Take a moment to read the [Testimonials at our Website!](#) While there you can also test our software - for free. EASI offers key reports from the 2000 Census. Thousands of corporate, magazines, colleges and other users go to our site for their Census demographics.

We have several versions of our software, The Right Site ®. They all have different data but the same software. The software has simple to interpret standard demographic reports, sales potential analysis, site analysis (3-ring reports), Trend reports (Census, current, and five year projection), and user defined demographic profiles (clusters). Our software also has unique features such as the EASI ® Significant Variable Report. This EASI created report instantly shows what makes each study area ***special***. The results of that can then be used to find other similar areas anywhere in the US!

EASI provides targeted demographic data, site analysis, and general reference software that is ***really*** easy to use – we guarantee it.

At our web site www.easidemographics.com you can compare the reports and data contained in The Right Site – Executive, Professional, or Advanced) and determine which one is right for you.

→ **The Right Site – Advanced Edition** (TRS – ADV) is an extraordinary product for highly detailed sales, marketing, and demographic analysis. Users of the Advanced need access to a myriad of demographics for reports and analysis. The Advanced is an ideal reference for those who need access to a comprehensive demographic source. This version, with 118 reports and over 1,900 variables, offers analysts in large company's massive amounts of data and reports with an easy to access interface.

With reports incorporating data such as: age by sex **and** by race and ethnicity, race by households, income by households **by** race and ethnicity, family characteristics (including income), education, housing, business employment and counts, 550 consumer expenditure estimates, Retail Sales and Store Groups, Quality of Life, and many other key variables. All demographic variables contain 4/1/2000 (benchmark), 1/1/2010 (current estimate); and 1/1/2015 (forecast).

The Master Database contains the same information as the Advanced.

Note: The standard version of this software includes **all** geographies: Block Groups, Census Tracts, ZIP Codes, CBSAs, Cities, Counties, States, and the US (Price - \$9,500). The Site Analysis extract contains: Block Groups, Census Tracts, Counties, States, and the US (Price - \$7,500). The Market Analysis extract contains: ZIP Codes, CBSAs, Cities, Counties, States, and the US (Price - \$4,000).

→ **The Right Site – Professional Edition** (TRS – PRO) *is an ideal product for any analyst who needs a range of geographically oriented data.* These analysts work for companies who require demographics for decisions for location analysis, real estate planning, advertising, sales, marketing, or potential analysis. All corporate and outside consultants will find this a great tool with access to commonly requested demographics. This product includes 32 reports with 326 demographic variables and forecasts plus other related data. The available reports include: demographic details such as an age by sex, race by households, income, family characteristics (including income) education, housing, and many other key demographic characteristics. Other variables include; basic Consumer Expenditures, Retail Sales and Store Groups, Quality of Life, and other important marketing information. All demographic variables contain 4/1/2000 (benchmark), 1/1/2010 (current estimate); and 1/1/2015 (forecast).

Note: The standard version of this software includes **all** geographies: Block Groups, Census Tracts, ZIP Codes, CBSAs, Cities, Counties, States, and the US (Price - \$2,500). The Site Analysis extract contains: Block Groups, Census Tracts, Counties, States, and the US (Price - \$2,000). The Market Analysis extract contains: ZIP Codes, CBSAs, Cities, Counties, States, and the US (Price - \$1,000).

→ **The Right Site – Executive Edition** (TRS – EXE) is a perfect **entry level** product for users who need current information with over 40 essential updated variables. This product includes: population, households, income, race, median age, employment, and other key data. The standard version of this software includes **all** geographies: Block

Groups, Census Tracts, ZIP Codes, CBSAs, Cities, Counties, States, and the US (Price - \$625).
